

**Dedicated Senior**  
Medical Center  
A CHENMED COMPANY

**“The relationship with the patient and whole family is what drew me to this vocation”**

**About Andrew P. Villamagna, MD, MSc, FAAFP**

Dr. Andrew P. Villamagna worked as a Chemical Engineer before attending medical school. He specializes in family medicine and says, “the relationship with the patient and whole family is what drew me to this vocation.” Dr. Villamagna strives to build strong relationships with his patients by showing he cares about all aspects of their lives. “I enjoy hearing their stories, laughing, and crying with them,” he adds. Dr. Villamagna says he wants “to give back to all seniors for the sacrifices they made.”

An advocate for healthy living, Dr. Villamagna has participated in several marathons and triathlons, has a Black Belt in Tae Kwon Do, and enjoys hiking and fishing with his children. He hopes to one day visit Sicily, his ancestral home.
