“I believe seniors deserve the best care that we can deliver.”

About Yash Shrivah, MD

Dr. Yash Shrivah's desire to help people led him to pursue a career in medicine. “I like to think I am making a difference based on giving them the ability to have a more productive and meaningful life. You can enjoy life so much more when you are healthy than when you are sick,” he says. He is passionate about preventative care and always takes the time to learn the values and ideals of his patients. “No solution is perfect for everyone,” he explains. His favorite part of being a physician is “meeting new people and hearing their stories.” He adds, “I believe seniors deserve the best care that we can deliver.”

In his free time, Dr. Shrivah can be found playing sports or looking through his telescope. He also loves playing chess.
