“Interacting with patients and their families is my favorite part of working in healthcare.”

About Jorge Imae Tirado Bientz, MD

Dr. Jorge Imae Tirado Bientz is passionate about providing holistic care. He followed in the footsteps of his parents, who are both doctors. “They inspired me to become a medical doctor and take care of needy populations,” he explains. Interacting with patients and their families is his favorite part of working in healthcare. He strives to establish trust with his patients through active listening and “practicing empathy and compassion.” If he could change anything about the current healthcare system, he would decrease costs and increase both availability and sustainability.

Dr. Tirado Bientz can be found spending free time with family and friends. He also enjoys hiking and painting.
