“I enjoy helping seniors solve their complicated medical problems, so they can live healthier, happier lives.”

About Maria Badami, DO, MBA, BS-MT, FABFM, FAOBFP, FAAFP

Dr. Maria Badami has been interested in healthcare since she was a child. Her favorite part of being a physician is “seeing patients happy about the healthcare they receive and their health outcomes.” Prevention is key in her practice. She explains, “I enjoy educating and motivating my patients through a holistic preventive health approach.” She loves getting to know her patients and hearing their unique stories, especially the seniors. “I enjoy helping seniors solve their complicated medical problems, so they can live healthier, happier lives,” she says.

When not with patients, Dr. Badami can be found spending time with her family, friends, and dogs at the beach. She also enjoys playing board games.
