“My favorite part of my profession is witnessing the impact that good quality care can make on patients and their families.”

About Dagny Davis, MSN, APRN

Dagny Davis is passionate about helping patients become the “healthiest versions of themselves.” Her favorite part of her profession is witnessing “the impact that good quality care can make on patients and their families.” She adds, “This career has impacted my own life more than I ever had thought would be possible.” She finds it incredibly rewarding to care for her senior patients and loves educating them on “the why” behind their medical care. “I’ve found that is very impactful for patients and encourages them to make good health decisions for themselves,” she says.

In her free time, Dagny Davis loves spending time with her family. She also worked as an emergency room nurse before becoming a nurse practitioner.
