“Hearing each patient's perspective allows me to provide medical guidance and collaborate with them to form a plan that can positively impact their health.”

About Shawnda Hollie, MD

Dr. Shawnda Hollie always knew she wanted to work in healthcare. She explains, “I chose Internal Medicine because I enjoyed motivating patients to take an active role in their health and providing continuity of care.” She loves building relationships with patients and is dedicated to listening to each of their individual needs.

“Hearing each patient’s perspective allows me to provide medical guidance and collaborate with them to form a plan that can positively impact their health,” she says. She finds it rewarding to care for the senior population and strives to make a difference in their lives “through education and encouragement.”

In her spare time, Dr. Hollie loves learning about interior design and trying DIY projects.
