“Working with seniors has been a wonderful experience, and I can't wait to see what the future brings!”

About Nida Ladiwala, MD

Dr. Nida Ladiwala loves making a positive difference in people’s lives as a physician. “One of the most gratifying aspects of this profession is to look into the eyes of my patients and tell them that I am with them through every step of their journey, no matter the circumstances,” she says. She loves building relationships with patients by “understanding their challenges and identifying goals.” She encourages patients to take control of decisions surrounding their care. She adds, “Working with seniors has been a wonderful experience, and I can’t wait to see what the future brings!”

In her free time, Dr. Ladiwala enjoys painting and spending time outdoors. She also loves traveling with her husband and playing video games.
