“I try to create a relationship based in trust by actively listening to my patients’ concerns.”

About Juan Camilo Garcia, MD

From an early age, Dr. Juan Camilo Garcia knew he wanted to pursue a career in healthcare. He explains that he “admired the dedication and passion doctors had to help their patients and the community.” Building relationships with patients is his favorite part of being a physician. “I try to create a relationship based in trust by actively listening to my patients’ concerns,” he explains. He always treats his patients with empathy and considers it an honor to care for the senior population. “I have always respected the senior population because of all the knowledge and experience they have,” he says.

Dr. Camilo Garcia loves spending his free time with his family. He also enjoys going to the beach and walking in the park.
